

LEARN

THE FIRST STEP TO BECOMING AN EXPERT IS LEARNING SOMETHING NEW

If you are new to the concepts of Identity Resolution, Master Data Management, Big Data, or Data Governance let IMT Client Education help you take the first step by providing expert instruction and access to industry leading guidance.

Our ever-expanding course portfolio is designed to keep you engaged, informed, and empowered by delivering the information you need to know in a format that is easy to consume. IMT's instructors bring a wealth of knowledge and expertise gained through real-world experience with hundreds of customers.

ONSITE INSTRUCTOR-LED LEARNING

IMT offers onsite instructor-led learning at your own facilities led by an experienced instructor. We combine a mix of instructional methods, from lecture and discussion to hands-on exercises and pre-recorded videos, which engage and inform our learners.

Onsite learning can be tailored to meet your specific learning needs or you can opt to follow the standard education curriculum.

Onsite learning is priced at a daily rate for up to 12 learners.

OUR MOST POPULAR COURSES

IBM MDM Boot Camp – 4 Days

Boot Camp features a mix of lecture, discussion, and hands-on activities to give your team a deeper understanding of IBM MDM. In this course we start from the ground up, configuring and tuning an MDM instance.

Data Stewardship w/ Inspector – 4 Hours

Data Stewardship features a mix of lecture and product demonstration (with optional hands-on activities) to give your team a solid foundation for resolving tasks and working with Inspector.

IBM MDM Operations – 4 Hours

Operations training features a mix of lecture and product demonstration to give your IT/Support team the information they need to monitor logs, message queues, and keep your MDM hub running smoothly.

IN-PROJECT LEARNING

For clients who are actively engaged in an implementation we offer in-project learning, which includes knowledge-transfer sessions, mentoring, and introductory sessions to help fill knowledge gaps.

In-project learning is billed through your consulting hours to simplify the contract and billing process.

REMOTE LEARNING

We realize that travel budgets are shrinking while your need for deep technical expertise is expanding.

Any of our courses can be delivered via Remote Learning, featuring Amazon AWS EC2 virtual machines for hands-on learning from anywhere. All you need is an Internet connection.

Remote Learning can be broken up into 2 hour, 4 hour, or full-day sessions depending upon your scheduling and coverage needs.

Remote learning is priced at a 1/2 day or daily rate for up to 12 learners and access to the Amazon AWS EC2 servers is included.
